

AXO PROPOL

PROPHYLAXIS PASTE

Product Description : Axo propol is a cleaning and polishing paste with a unique combination of abrasive materials zirconium silicate and pumice powder for cleaning and polishing during dental procedures. It contains sodium fluoride at a concentration of 1% fluoride ion for post treatment comfort to the patient. Axo propol is produced in a variety of fruit flavors for pleasant feeling during the treatment procedure.

Composition : Zirconium Silicate, Pumice Powder, Glycerine, Carboxy Methyl Cellulose, Fumed Silica, Sodium Fluoride, Pigments and flavoring matter.

Indications : Prophylaxis Paste, is indicated for use to effectively clean and polish tooth structure with minimal abrasion

Contraindications : Prophylaxis Paste is contraindicated in patients with a known allergy to any of the components.

Instructions for use :

1. Dispense Prophylaxis Paste into dappen dish or other suitable container. A saliva ejector may be helpful during the actual prophylaxis.
2. Fill rubber prophylaxis cup with paste. Before starting hand piece, carry paste to field of operation and deposit a small amount on each tooth surface. It is necessary that fresh paste be provided for each surface in order to obtain maximum cleaning effectiveness.
3. Run rubber cup at SLOW SPEED over each tooth surface for approximately 10 seconds. Make sure that the edge of the cup goes below the free margin of the gingival into the gingival sulcus. Continue procedure until all exposed surfaces of the teeth have been thoroughly cleaned and polished.
4. A rubber cup or soft bristle brush may be used on occlusal surfaces.

Warning : Prophylaxis Paste may cause eye irritation upon contact. If contact with eyes occurs, immediately flush eyes with copious amount of water for 15 minutes. Seek medical attention if irritation or discomfort persists.

Precautions :

1. All tooth surfaces should be thoroughly scaled to remove calculus.
2. Necessary examination and radiographs should be taken prior to prophylaxis with Prophylaxis Paste.
3. During use, wear protective glasses and gloves.

Storage Conditions : Store at temperature between 10°C to 24°C. Close the cap carefully after use. Keep away from moisture. Shelf life not affected after opening if stored in a cool dry place.

Shelf Life : 3years from the date of Manufacturing.

Presentation :

- 1x Plastic Jar 100g, Fresh Mint
- 1x Plastic Jar 75g, Fresh Mint

Disposal conditions : To be disposed off based on the prevailing rules of the country in which it is used.
